

PRICING OF WEIGHT LOSS MEDICATIONS

We believe in price transparency and giving you the most competitive pricing on weight loss medications, while also allowing you to personalize your dosage with your provider. See below for pricing if you follow the typical dosage schedule. If you depart from this schedule or buy medications in large sizes, your total monthly payment will change, but please be assured that we are providing you with the most economical way to access medications. Your provider will be able to explain to you how pricing works if you depart from this schedule.

See sample pricing for the typical dosing schedule below. If dosing schedules vary, pricing will vary.
